

Welcome to WALKIN NETWORK

World's first "Move -To - Earn" based MMP
(Market Making Programme) for kick Token
based on "Polygon chain".

Introduction

Walkin Network is a Market Making Programme for kickto (a revolution move to earn). Walkin network is a sub-platform designed to build a community for the Kickto project with "Move to Earn" ecosystem. Walkin network is connected with the DEX (Decentralised exchange or SWAP) and DEFI (Decentralised finance) of Kickto.app which allows several entities to hold a copy of a history of transactions, meaning it isn't controlled by a single, central source.

A member of walkin network will automatically be able to utilise it's rewards Kick through kickto.app through walking, running, jogging, hiking and so on.

Why Choose us

World's first "Move to Earn" ecosystem based MMP (Market Making Programme)

Decentralized platform based on Legos and DeFi
